Welcome to Aisha Love Spells

Egyptian witchcraft is an ancient form of magic that is designed to use a ritual or technique to manipulate a natural spiritual event or phenomenon using supernatural powers and techniques. In Ancient Egypt, the Egyptian spell casters used Egyptian magic spells for religious purposes and for practical purposes. It was believed that Egyptian magic was created divinely for the benefit of people. Ancient Egyptians used magic in the same practical way that they used literature, architecture and medicine. It helped people cope with their environment and with religion.

Magic to the Egyptians was a potent magical force. They used real witchcraft spells, including love spells to control aspects of their life. It was a way of controlling the gods to do their bidding at their own wishes. It was even used to alter the weather and to help crops grow. They felt that witchcraft helped those who were on their way to the afterlife.

Ancient Egyptian magic spells and rituals help people defend against their enemies. They made wax or clay figures representing their enemies and then they destroy them. Magic is used to keep enemies at bay in a military confrontation or in one's personal life. There are Egyptian witchcraft spells that personally attack an enemy by sending evil spirits to haunt the person in their dreams.

Ancient Egyptian spells are not all about evil and enemies. Such real spell casters of magic can make authentic love spells that come along with an incantation spoken when the potion is drunk or put in someone's food. It was similar to a medical prescription and wasn't considered supernatural at all. Egyptian magic or witchcraft is a real and powerful practice that is used in everyday life like medicine or other healing practices.

The basic use of witchcraft spells is to compel divine powers to help the spell caster. A specific deity is used for different aspects of spells. The deities could even be threatened with bad outcomes if he or she did not help with the spell. The most common god that was invoked was the goddess Isis — the mother of Horus, which is who the individual most identifies with.

Egyptian witchcraft also focuses on the prediction of future events. The statue of a specific god is used as an oracle to interpret dreams and outline the future. Dream interpretation is popular in Egyptian magic. Gods magically communed with the individual during the dreams and its interpretation was done by a skilled practitioner of Egyptian witchcraft. You can also sleep in an Egyptian temple (in ancient times) in order to get specific instructions from the god or goddess. Certain dreams have specific meanings, such as when you bury an old man in your dream. This means that you will be prosperous.

Love spells that work use talismans, which are used for completing the circle of magic. They were worn and were used for protection of negative energies. Talismans and Amulets were made from wood, clay and stone and were placed in mummies as part of Egyptian witchcraft spells. In contrary the fake spell casters never used any form of talisman
